BOATGUARD X THE GUARDIAN OF YOUR MARINE ASSET

INDEPENDENT, CONVENIENT AND RELIABLE WAY OF STAYING IN TOUCH WITH YOUR BOAT.

WHAT IS BOATGUARD

BOATGUARD monitors and controls devices that are crucial to your boat's safety and sends an alarm to your smartphone when they are not working properly.

WHY CHOOSE BOATGUARD

BOATGUARD features an ultra-low power consumption of only 16 Amper hours per year. It's customizable network of extension modules offers you 8 input and 8 output slots each. It enables full integration of intelligent controllers such as cabin humidity management and engine data read.

BENEFITS

- > stay in touch with your boat while you are not there,
- > be assured that the boat is under control,
- > stay connected all-year long,
- > get an alarm when something's wrong.

BOATGUARD is controlled by your smartphone app. Available for iOS and Android.
